

## **ITAB has been selected to deliver self-checkout solutions to a value of approx. 3 mEUR to a leading German retailer**

ITAB, one of Europe's leading suppliers of shop concepts, has been selected to deliver self-checkout solutions to a value of approx. 3 mEUR to a leading German retailer with international presence. The program currently covers selected countries during 2019.

After initial deliveries this is an important expansion of the program, ITABs ability to react on the different requirements of design and functionality has been crucial for the decision. Also, the reliability of the system has influenced the decision strongly. ITABs SCOs (self-checkout) allow the consumers a much better shopping experience and increase the levels of service in the stores.

Ulf Rostedt, CEO of ITAB Shop Concept AB says:

*"This is another proof that our Check Out Arena strategy is rewarded by customers. ITAB invested early into self-checkouts and automation in stores, with the focus on digitalisation in the retail industry we now see a renewed interest in this area to reduce costs and increase service. We are proud to have this order to one of the leading German retailers."*

ITABs self-checkout concept is designed to increase efficiency, create fast and flexible checkout options, free up staff and allow the store to improve its level of service while at the same time provide increased security. The self-checkout solutions offer retailers major cost savings. For more information, see [www.itab.com](http://www.itab.com).
