
GLOBAL REPORTING INITIATIVE (GRI)

ITAB presents its sustainability information with the support of Global Reporting Initiatives' (GRI) standards, core level. The sustainability report is prepared annually and forms part of ITAB's annual report. The sustainability information presented in the annual report for 2018 has not been reviewed by an external party.

All in all, the information in the annual report will provide a good picture of ITAB's work within the framework of social, financial and environmental sustainability. The sustainability information in the report has been defined and delimited on the basis of an analysis of ITAB's most essential issues, and describes the impact

both within and outside of the organisation. GRI's fundamental principles for sustainability reporting form the basis for the preparation of ITAB's GRI report. This includes consideration having been given in order to ensure good reporting quality and to delimit and define the content of the report.
